

# UNLOCK YOUR LAND'S POTENTIAL

BUILD A DYNAMIC ECOSYSTEM FOR  
HOLDERS, FANS AND COMMUNITY

# Your Land, Your Fan Ecosystem

Your Raw Land Block isn't just a virtual asset; it's the gateway to a complete fan ecosystem. Use your land to create engaging experiences, entertain, educate communities, and unlock new revenue streams. As a Pre-sale Raw Land Block Investor, your rights to deploy are held in an NFT, meaning if you choose to transfer or sell, you can do so on Solana NFT marketplaces.

# Exclusive Land Investor Benefits

## **Ecosystem apps for your community:**

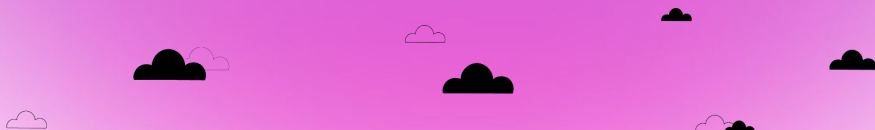

Gain access to all our cutting-edge features. From immersive 2.5D/3D worlds, NFT Land Economy, AI-driven NPCs & in-game quests, to our advanced communication tools, digital identity customization, AI Agents, and more.

## **Land Distribution Mechanism:**

After deploying your Raw Land Blocks, they will be subdivided into land unit NFTs granting you and your community true ownership, with the flexibility to transfer or trade these NFTs on Solana marketplaces.

## **Free Access & Hosting for 5 Years:**

Enjoy a 5 years complimentary land hosting and access to all our features, through the tokens allocated to exclusively to pre-sale land buyers. Afterward, a nominal fee of \$50 per month applies (exclusive discount for land pre-sale buyers)

# **Immersive Virtual Worlds**

# 2.5D & 3D Virtual Spaces for Community

Create fully customizable and branded virtual spaces that bring your community closer together. Design unique worlds where every detail can be tailored to resonate with your community.

# AI-Powered NPCs & In-Game Quests

Take engagement to the next level with intelligent NPCs that aren't just decorative, with the power of AI they're dynamic educators. Train your in-world NPCs in specific topics so your users can learn about any topic in a gamified way to then participate in immersive quests, collect points and claim rewards.

# **Gamification & Engagement**

# Quest System

Launch interactive campaigns that drive participation. Design social, educational, on-chain, and real-world quests with automated systems to reward participants points while boosting engagement and participation.

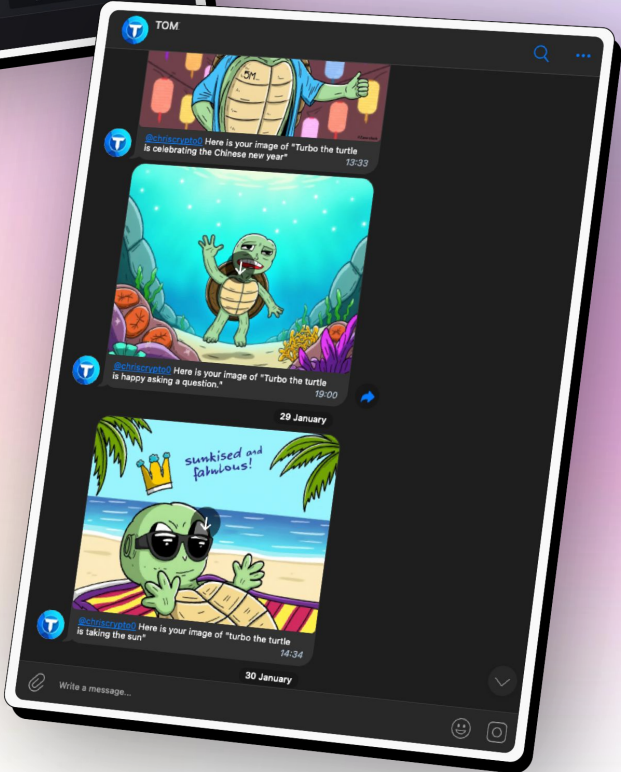

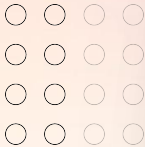

Effortlessly onboard your community with multi-chain wallet support (Solana, EVM, Polkadot, Bitcoin, and social logins), with a robust Human Score verification that ensures authentic, bot-free participation.

# AI Meme Maker

Spark viral engagement by letting users unleash their creativity. With tools for text, images, stickers, and AI-driven text-to-image generation, users can craft and share memes on a meme dedicated page in your website or directly on telegram.

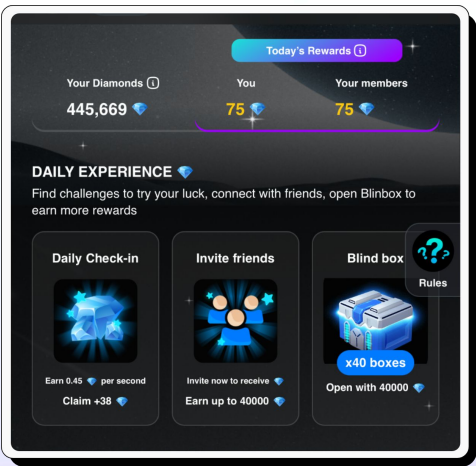

# Telegram Mini Apps for your Community

# Daily Check-Ins & Social Raid

Launch your very own Telegram mini-app with a set of community engagement features on our robust infrastructure and tap into over 900 million users.

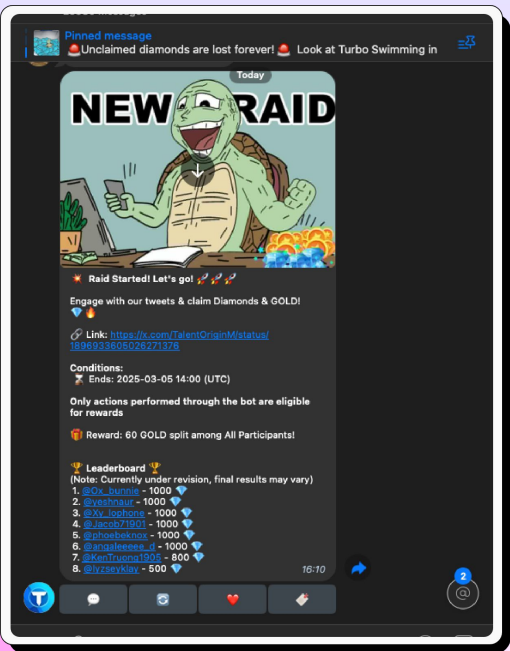

## Daily Check-Ins & Quests:

Encourage regular engagement with daily tasks.

## Intelligent Telegram Bot & Social Raids:

Our dedicated Telegram bot not only rewards users for daily activities, social media raids, and inviting friends, but it also integrates with our AI Meme Maker.

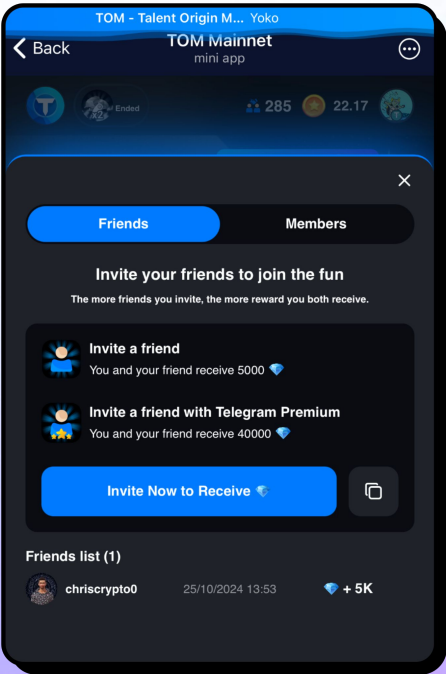

# Referral and Blindbox Reward

Launch your very own Telegram mini-app on our robust infrastructure and tap into over 900 million users.

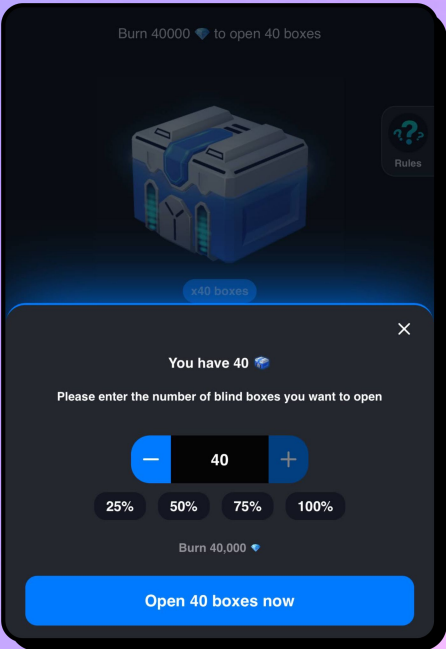

## Referral & Viral Growth System:

Empower your community to grow organically with a built-in referral system

## Blind Boxes & Prizes:

Build and customize detailed avatars in both 3D and 2D formats.

# Real-time Leaderboard & DApp

Launch your very own Telegram mini-app on our robust infrastructure and tap into over 900 million users.

## Real-Time Leaderboards:

Foster competitiveness and gamify the engagement with live leaderboards that showcase top performers.

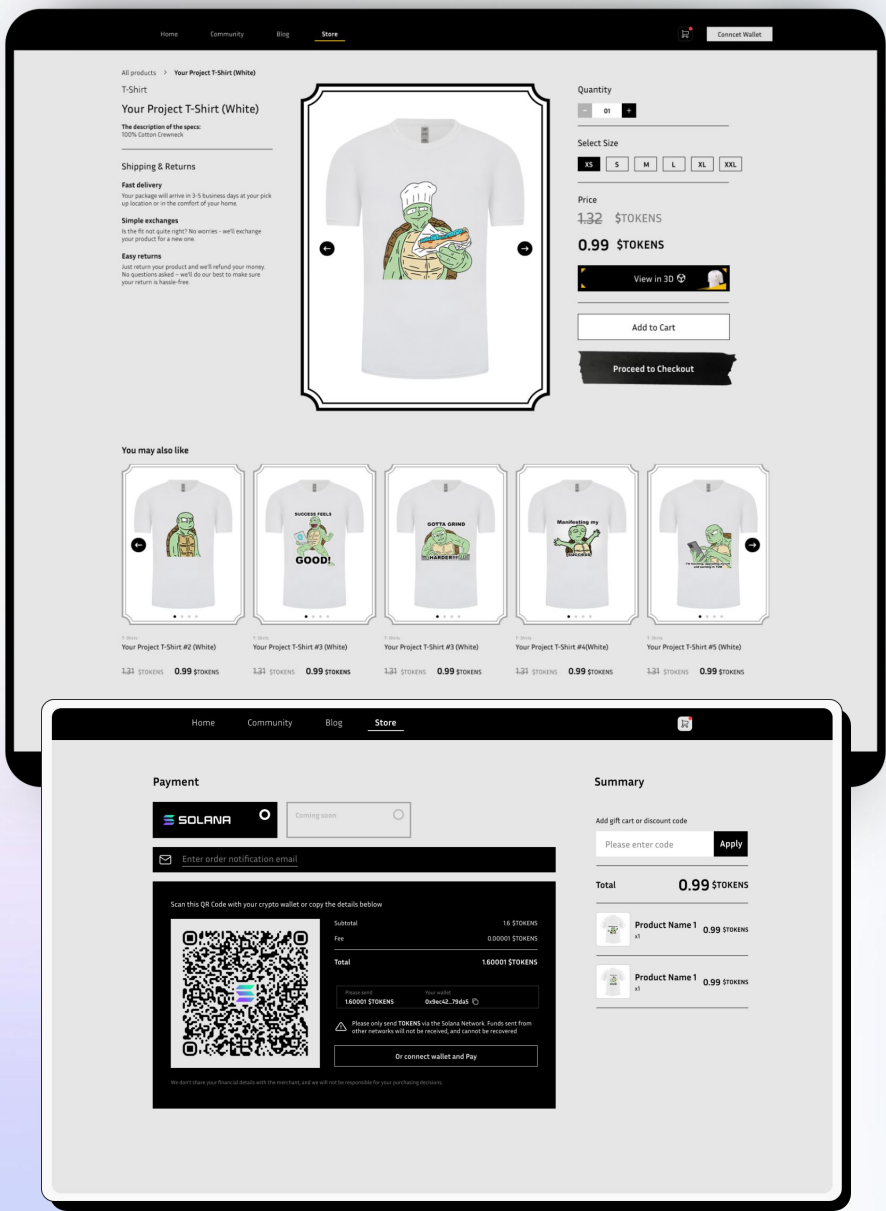

## Seamless DApp Integration:

Enhance your mini-app by embedding your website or DApp directly within it, offering users one-click access to your full digital ecosystem.

# Branded Merch Store with Token Integration

Monetize your ecosystem effortlessly by selling digital, phygital, or physical products using your native token. Enjoy a seamless custom token e-commerce store that enhances user engagement and brand loyalty.

# Governance

Empower your community to shape your project's future. Every token holder has a voice in key decisions. Whether it's treasury spending, partnerships & key marketing collaborations, or the deployment of new features, the decision is theirs through decentralized governance.

## Vote for Innovation

Earn staking rewards by contributing to shaping the future innovations within our ecosystem.

# AI Agents

# AI Agent Solutions

Supercharge your project with dynamic AI agents that act as your ecosystem’s ambassadors:

## Autonomous Interactions:

Agents independently plan and execute actions in real time, creating trending, dynamic and engaging experiences.

## Social & On-Chain Trend Scanning:

Automatically monitor social media and on-chain activity to detect emerging trends and community sentiment, then plan and publish content that keeps your audience informed and engaged.

My name is  
**Clara**

Yo, hi Andrew!  
Welcome to my new journey with me.  
I'm Clara, the one who will be accompanying you during your Agent(name) experience.
